

PB-251.4

Powerful performer - the new four-stroke blower (CA Model)

DOLMAR blowers feature characteristics demanded by professionals for continuous operation. Light weight, quick & easy starting, powerful air flow and low sound operation. In addition, the units are designed to maximize operator comfort.

Low vibration handle

Easy oil fill level control

Toolless spark plug access

Technical specifications

Overall weight	4.5 kg (9.9 lbs)	Air volume max	606 m ³ /h (320 cfm)
Displacement	24.5 cc (1.5 cu. in)	Max air speed	64.6 m/s (150 mph)
Power rating	0.81 kW (1.10 HP)	Fuel	unleaded
Fuel tank capacity	0.52 l (17.6 oz)	Engine manufacturer	Makita Numazu
Engine	4-stroke	Sound level	65 dB(A)

- Powerful and smooth running OHV 4-stroke engine
- Low fuel consumption compared with low emissions
- Blows leaves, dirt, waste and even powder snow
- Blow pipe with fish tail nozzle as serial equipment
- Automatic decompression valve system for easy starting
- Easy oil inspection and oil change due to easy access
- Sliding spark plug cover for easy access
- Rubber coated handle for reducing hand-arm vibration
- Low housing width thanks to optimized impeller design
- Low engine and wind noise for comfortable working
- Suction Device (optional) converts the unit to a vacuum unit
